AOPA FOUNDATION
**ANNUAL
REPORT**

ABOUT US

The AOPA Foundation, a 501(c)(3) charitable organization and the philanthropic wing of the Aircraft Owners & Pilots Association, propels general aviation forward.

Through its fundraising efforts, the AOPA Foundation supports two vital initiatives: You Can Fly, which aims to make flying more accessible and affordable, and the AOPA Air Safety Institute, dedicated to enhancing aviation safety through education and training.

These programs are made possible by the generosity of donors who contribute beyond their AOPA membership dues—cultivating a stronger, safer and more robust general aviation pilot community.

OUR MISSION

The AOPA Foundation, Inc.—a tax-exempt charitable, educational, and scientific organization—will educate the general public on the value of general aviation. The AOPA Foundation works to improve aviation safety, preserve and improve community airports, and encourage learning to fly for career and personal benefit—all in the interest of ensuring the future of general aviation in America.

A MESSAGE FROM DARREN PLEASANCE

The AOPA Foundation's programs are designed to inspire, educate, and support pilots at every stage of their journey. The future of general aviation is bright, and with your continued support, we are poised to reach new heights.

— **Darren Pleasance**
President & Chief Executive Officer
AOPA Foundation

I am deeply honored to join an organization with such a rich history and unwavering commitment to the general aviation community. I extend my heartfelt gratitude to each of you for your steadfast support, which has been pivotal in our AOPA Foundation achievements.

In 2024, under the leadership of Mark Baker, who served as AOPA's President and CEO for 11 years, we achieved significant milestones. Mark's vision and dedication have left an indelible mark on our organization and on general aviation, and we are profoundly grateful for his contributions.

As I reflect on the accomplishments of the last year, I am also filled with appreciation for the unwavering support and dedication you have shown to the AOPA Foundation. Your commitment and your generosity have been instrumental in advancing our mission to promote and protect general aviation.

The AOPA Air Safety Institute (ASI) has been at the forefront of enhancing aviation safety for nearly 75 years. In June 2024, we welcomed Mike Ginter, a seasoned general aviation advocate and retired Naval aviator, as the new leader of ASI.

Under Mike's guidance, ASI expanded its safety content, delivering data-driven analyses and innovative resources to support pilots of all experience levels. ASI webinars, videos, podcasts and presentations were accessed more than 10 million times last year alone.

General aviation is in its safest era ever, thanks in no small part to the aviation safety education content produced by ASI and available at no cost to all pilots.

Your generous donations not only keep our skies safe but help ensure that anyone who dreams of flying has the resources they need to make that dream a reality.

Our You Can Fly program has made significant strides in getting and keeping more pilots flying. Nearly 30,000 high school students nationwide are experiencing the wonder and excitement of aviation through our High School STEM Curriculum this school year alone. This program prepares students for advanced education and aerospace careers, helping to meet the global demand for more pilots and aviation professionals.

In 2024, we awarded scholarships to 250 students, teachers, and aspiring pilots—the largest group and highest funding to date. This initiative underscores our commitment to fostering a vibrant and diverse aviation community.

Through the Flying Clubs initiative, you make flying more accessible and affordable. By supporting the establishment and growth of more than 250 flying clubs since the initiative's inception, thousands of pilots now have more affordable access to aircraft and more opportunities to connect, share experiences, and enhance their skills. And with your support, more than 13,500 formerly rusty pilots have returned to active flying after participating in our Rusty Pilot seminars and webinars.

As we reflect on these accomplishments, we remain focused on our mission. The AOPA Foundation's programs are designed to inspire, educate, and support pilots at every stage of their journey. The future of general aviation is bright, and with your continued support, we are poised to reach new heights.

Thank you for being an integral part of this important work. Together, we will ensure that the freedom to fly remains a cherished and enduring part of our nation's heritage.

With appreciation,

Darren Pleasance
President & Chief Executive Officer
AOPA Foundation

Your generosity and support have made a significant impact, helping to shape the future of aviation and ensure that this passion we share will continue.

Thanks to your contributions, the AOPA Foundation is able to provide countless opportunities for young, aspiring pilots to take to the skies. Your donations support vital programs like our free aviation STEM curriculum, which has engaged tens of thousands of high school students nationwide. Through this program, we introduce these young minds to aviation, igniting a spark for future careers in the field and creating the next generation of pilots and aviation professionals.

In addition to nurturing future pilots, your support also strengthens the safety of all general aviation pilots. With resources from the AOPA Air Safety Institute, pilots continue to have access to critical information that empowers them to fly safely and with confidence. These initiatives are essential, and it is only through your generosity that we are able to provide such valuable resources.

It's important to note that programs like You Can Fly and the Air Safety Institute are not funded by AOPA membership dues. They rely on the contributions of supporters like you. Without your continued investment, these programs simply wouldn't be possible. Your commitment to general aviation is deeply appreciated, and your belief in the importance of education, safety, and advocacy in our field is what allows us to move forward year after year.

As you read through this report, I hope you take pride in knowing that you have made these achievements possible. We are grateful for your trust in the AOPA Foundation, and we look forward to working together toward the continued growth of our programs that serve the general aviation community.

Elizabeth A. Tennyson

A KEY PILLAR OF AVIATION SAFETY

THE AOPA AIR SAFETY INSTITUTE

Since 1950, the AOPA Air Safety Institute (ASI) has been a key pillar of safety in general aviation. Our unwavering dedication to pilot education and accident prevention has helped cultivate a culture of awareness and informed decision-making, significantly lowering accident rates.

6.3 MILLION
VIDEO VIEWS

Through a comprehensive suite of resources, insightful research, and targeted initiatives—provided free of charge and accessed over 10.4 million times in 2024 alone—the AOPA Air Safety Institute (ASI) equips pilots with the knowledge and skills they need to fly safely with confidence. This effort continues to foster a safer, more enjoyable flying experience for everyone.

SPREADING THE WORD

In 2024, ASI's programs reached impressive engagement levels:

- **6.3 MILLION** video views
- **280,000** podcast downloads
- **500,000** publication and report downloads
- **3.2 MILLION** social media impressions

ASI ensures its resources are easily accessible across various platforms, helping to spread our safety message far and wide.

CONTENT PRODUCED FOR 2024

ASI produced a wealth of new content to support pilot safety and education in 2024:

- **13** new videos in **6** video series
- **12** "There I Was ..." podcast episodes
- **28** in-person seminars

SAFER PILOTS, SAFER SKIES

In fiscal year 2024, general aviation saw a slight uptick in the number of fatal accidents compared to the historic low of 2021. However, accident rate projections suggest 2024 could be one of the safest years on record, with a potential ranking of the safest year, based on early projections of flight-activity numbers. With 2023 showing an increase of 1.5 million hours and 2024 indicating greater activity than 2023, any increase in the number of accidents will be offset by the increase in activity hours, which are expected to be published in January 2026.

General aviation flight activity and participation is growing across most segments, surpassing pre-pandemic levels. This positive trend highlights the importance of ASI's ongoing safety efforts, which continue to play a pivotal role in keeping aviation safe and encouraging broader participation.

BOLSTERING THE GA COMMUNITY

YOU CAN FLY

You Can Fly is a comprehensive program designed to strengthen and expand the pilot community. Through its four targeted initiatives—High Schools, Flying Clubs, Rusty Pilots, and Flight Training—**You Can Fly** tackles the key challenges facing the aviation industry today.

By inspiring and educating the next generation of pilots, supporting flying clubs to bring affordable access to aviation to more people, helping lapsed pilots return to active flying, and working to make flight training more efficient and effective, **You Can Fly** is moving the needle to ensure the long-term health and growth of general aviation.

HIGH SCHOOL INITIATIVE

The AOPA Foundation High School initiative is a dynamic, nationwide program aimed at inspiring and educating the next generation of aviators, as well as future professionals in aviation and aerospace.

At the heart of the initiative is the High School Aviation STEM curriculum. In the 2024-2025 school year, this program will reach 29,600 students across 1,430 schools in 48 states, integrating aviation-focused STEM courses into the standard high school curriculum. Offered at no cost, our curriculum opens doors to aviation careers for thousands of students through two career and technical education tracks—pilot and unmanned aircraft systems (drones).

Beyond the classroom, the initiative provides students with hands-on aviation experience through high school Aero Clubs. Whether flying drones, restoring airplanes, working with avionics, or preparing for flight training, club members take great pride in their activities and value the diverse, aviation-related experiences they gain.

The High School Aviation STEM Symposium is another key component of the initiative. This year's 10th Annual Symposium brought together nearly 450 educators, aviation professionals, and industry leaders to share best practices, resources, and strategies for integrating aviation education into high school programs. Year after year, this event fosters collaboration and inspiration, empowering educators to engage and motivate their students in their pursuit of aviation and aerospace.

Of the graduates of the program, 63% plan to pursue a career in aviation. Among those, 42% aim to become pilots, 24% are focused on aerospace engineering, 13% are interested in aviation maintenance, 6% are targeting careers as drone pilots, and 15% are exploring other aviation-related fields.

By reaching students as they begin considering their future careers and providing clear pathways into aviation, the High School Initiative plays a crucial role in ensuring the continued strength and growth of the aviation industry.

The AOPA curriculum serves a valuable role in our school. Students enjoy the topics and activities including field trips, guest speakers, hands-on projects and flying at the local airport on weekends. One senior earned a private pilot certificate, and another was accepted to the Air Force Aim High summer flight program. Previous graduates are also pursuing aviation careers. I have the wonderful privilege of teaching life lessons through the eyes of aviation. The students appreciate the classes, and our elementary and junior high kids can't wait to take the class [when they are in high school].

FLIGHT TRAINING INITIATIVE

Every pilot begins their journey as a student, and a great flight training experience is key to fostering a lifelong passion for aviation. The Flight Training initiative takes a comprehensive approach to transforming this experience, ensuring that student pilots, instructors, and flight schools have the resources they need to succeed.

Flight Training Experience Survey & Awards—The Flight Training Experience Survey & Awards program encourages excellence within the aviation community by gathering valuable feedback from students about their flight training experiences. This program recognizes outstanding performance and helps flight schools and instructors improve their training programs. In 2025, nearly 2,600 students participated in the survey, with 67 flight schools and 67 instructors earning recognition for excellence in flight training. This program continues to elevate the quality of training nationwide.

What's Up!? Webinars—Formerly known as *Don't Get Rusty*, the *What's Up!?* webinar series provides ongoing education and skill enhancement for pilots of all levels. Covering topics such as flying techniques, safety, and professionalism, these webinars help pilots maintain proficiency and build confidence in their flying abilities. In 2024, 12 *What's Up!?* webinars were delivered, reaching a total of 16,254 viewers, contributing to a well-informed and proficient pilot community.

AOPA Flight Training Advantage (AFTA)—AFTA is an innovative, adaptive flight training program that offers a centralized platform, bringing together an array of tools, resources, and an adaptive curriculum tailored to meet the unique needs of students, instructors, and flight schools. The platform aims to eliminate uncertainty from the flight training process, offering students clear visibility into their progress. In 2024, over 4,100 flight hours were logged through the AFTA app, and 521 flight schools and independent instructors signed up to use it.

AOPA Flight School Business—The Flight Training initiative also supports the business side of flight training through the AOPA Flight School Business program. This initiative equips flight school owners and managers with best practices, resources, and guidance to optimize their operations. In 2024, the program published 24 insightful short-form interviews with flight school owners, offering valuable tips and strategies for running a successful flight school.

Through these combined efforts, the Flight Training initiative continues to have a meaningful and lasting impact, shaping the future of aviation by providing pilots and flight schools with the tools they need to succeed. Your support helps make all of this possible, ensuring a strong and sustainable flight training ecosystem for generations to come.

"I have seen an increase in bookings this year, compared to last year. My view is it is mostly due to word-of-mouth, especially from those of my graduates who secured jobs as jump pilots. Your [Flight Training Experience] survey reinforced to me the importance of helping with job placement after graduation. I intend to redouble those job placement efforts, as a result of the survey feedback. I commend AOPA for this effort. I intend to continue participating.

RUSTY PILOTS INITIATIVE

Once a pilot, always a pilot...but life can sometimes get in the way. For those who truly love aviation, the joy of flying never fades. The Rusty Pilots initiative offers a welcoming and supportive pathway for those ready to return to the skies as pilot-in-command. Whether through in-person seminars, informative webinars, or online courses, the initiative provides returning pilots with the necessary resources and guidance to refresh their knowledge, rebuild their skills, and confidently take to the skies once more.

In 2024, Back to Your Roots online course was launched. Back to Your Roots is specifically designed for current and retired professional pilots seeking to re-engage with general aviation flying for recreational purposes. Nearly 400 people participated in a Back to Your Roots webinar or completed the online course.

Thanks to the Rusty Pilots initiative, 13,555 pilots have returned to active flying, with more than 55,000 total participants since the program began. In 2024 alone, 2,344 pilots engaged in an online course, and approximately 1,982 pilots attended an in-person seminar, highlighting the widespread impact of the program in helping pilots reconnect with aviation.

With your support, we continue to provide these essential tools and encouragement, ensuring that pilots can return to the skies safely, confidently, and with renewed enthusiasm.

FLYING CLUBS INITIATIVE

More affordable access to aircraft. A community of pilots to share the fun and share the knowledge. An organic way to keep people engaged and flying. Flying clubs are a familiar model that can address many of the issues general aviation faces, including affordability, access to aircraft and comradery.

Through extensive online resources, helpful workshops, and one-on-one assistance, the Flying Clubs initiative focuses on launching new flying clubs and providing support to help existing clubs grow and flourish.

Our Flying Clubs team helped launch 17 new clubs in 2024, reaching a total of 255 clubs launched since the program's inception. These clubs represent thousands of pilots throughout the United States.

More than 1,500 people attended our 17 presentations and seminars, and our Club Connector newsletter grew to nearly 13,000 subscribers. Through these resources, club members can stay connected, get answers to their questions, and learn about issues that pertain to their unique situations.

Your generosity is directly contributing to the growth of these flying clubs, ensuring that more pilots have the opportunity to experience the freedom and joy of flight.

SCHOLARSHIPS

For many aspiring aviators, it takes financial support to make the dream of flying a reality. Thanks to the generosity of donors, the AOPA Foundation offers aviation scholarships that provide these important resources to grow the pilot population and allow these aspiring aviators to overcome financial barriers and achieve their aviation goals.

In 2024, 4,077 scholarship applicants were received, and 250 deserving individuals were awarded scholarships ranging from \$2,500 to \$14,000. These scholarships are not just financial assistance—they are gateways to the skies.

Thanks to the Ray Foundation, \$1 million in scholarships were distributed to high school students and teachers across the nation, further supporting the future of general aviation.

Your donations have a direct, life-changing impact. Our scholarship donors are helping to cultivate the next generation of pilots, enabling them to reach new heights in their aviation careers and ensuring the continued growth of the pilot community for years to come.

2024 SCHOLARSHIP AWARDS:

- **4,077** applications
- **Nearly \$1,560,000** awarded
- **102** High School scholarships
- **8** Teacher scholarships
- **33** Primary and advanced rating scholarships
- **104** Corporate Aircraft Association scholarships
- **1** FAA Knowledge Test scholarship
- **2** Aviation maintenance

I'm thrilled to share some exciting news—I passed my checkride yesterday! This achievement has been a journey, and I couldn't have done it without the support and encouragement of AOPA. Thank you for being there along the way. The scholarship was a big boost in helping me continue on in the journey. I'll carry what I have learned through the AOPA Scholarship webinars with me as I continue to grow and pursue my passion for flying. Thank you again for everything!

— **Ginger Ropka**
2024 AOPA Foundation Scholarship Recipient

“

New private pilot here! The AOPA scholarship I was so graciously awarded has been instrumental in my flight training and has taken me further than I ever imagined.

The scholarship funded a significant portion of my journey toward earning my private pilot certificate and has also supported some of my instrument training. Beyond that, it has enabled me to provide discovery flights for kids in my Aviation Explorers group, who share the same passion for flying.

I cannot overstate my gratitude for this scholarship and the profound impact it has had on my life. Thank you once again for all the support and resources. I look forward to giving back to the aviation community, which has been so welcoming to me.

— **Aden Scheftner**
2024 AOPA Foundation Scholarship Recipient

“

Thank you so much for your support and mentorship as I move through the process of getting my private pilot certificate. I soloed on September 23rd and it was AWESOME! I love my instructor, the aircraft I'm flying, and everything about it... I absolutely love flying and will continue to persevere through whatever challenges I face. I will forever be a general aviation enthusiast!

— **Jackson Kemper**
2024 AOPA Foundation Scholarship Recipient

“

I am incredibly grateful to have received a flight training scholarship from the AOPA Foundation. It truly made a significant difference, allowing me to complete my training and checkride, which I am thrilled to announce I passed last week!

Your support and encouragement mean a lot to me. Flight training is indeed expensive, and this scholarship helped alleviate much of the financial burden, enabling me to focus on my training. I have been progressing well and have now achieved my goal of becoming a Certified Flight Instructor.

I'm excited to share that I will be starting my CFII training next week. I value having you as a resource and look forward to reaching out with any questions or for guidance as I continue my journey. Your experience and guidance are invaluable, Thank you once again for everything.

— **Rachel Skirvin**
2024 AOPA Foundation Scholarship Recipient

INSPIRING AVIATION DREAMS

THE 2024 YOU CAN FLY CHALLENGE

For the ninth time in as many years, the AOPA Foundation was challenged by the Ray Foundation to raise funds in support of the You Can Fly program.

The Ray Foundation, established by pilot and philanthropist James C. Ray, agreed to provide a matching grant of up to \$1.5 million for donations made during the You Can Fly Challenge fundraising campaign of 2024.

Thanks to the generosity of more than 2,000 donors, the AOPA Foundation not only met but exceeded the challenge goal. Donor contributions came to more than \$3.3 million, resulting in more than \$4.8 million in total funds focused on getting and keeping people flying. Many thanks to all who helped make the 2024 You Can Fly Challenge a success, and to the Ray Foundation for its visionary, philanthropic support of the AOPA Foundation's You Can Fly program.

DONORS

AOPA FOUNDATION CORPORATE SUPPORTERS

AOPA Foundation corporate supporters provide significant, often multi-year commitments to ensure a brighter future for general aviation. By providing critical funding for programs such as You Can Fly and the AOPA Air Safety Institute, these partners help get and keep more pilots flying and create invaluable safety resources for pilots of all experience levels.

LEGACY SOCIETY

The AOPA Foundation Legacy Society is a group of dedicated supporters who want to help create a brighter future for general aviation by listing the AOPA Foundation as a beneficiary in their will or trust, on a bank or retirement account, or in other arrangements.

AOPA FOUNDATION

The AOPA Foundation, a 501(c)(3) charitable organization, is the philanthropic arm of AOPA. Donor contributions fund programs that membership dues don't cover, including the AOPA Air Safety Institute and You Can Fly program. The goal of the AOPA Foundation is to fund opportunities of growth beyond what AOPA membership dues can accomplish, for the entire general aviation community.
