

# AOPA FOUNDATION ANNUAL REPORT

2013

Preserving our freedom to fly is the staunch conviction of every AOPA member. It's our common cause. It's what binds us together. And it's the reason why the AOPA Foundation exists.

AOPA members who donate to the AOPA Foundation clearly recognize that AOPA membership dues alone cannot support our tough programs—the ones that tackle the hardest issues affecting general aviation today.

Certainly dues help create popular member benefits such as AOPA Pilot and Flight Training magazines, the Pilot Information Center and free access to AOPA's Internet Flight Planner. But it's the donations to the AOPA Foundation given by our most dedicated members that help us go above and beyond to launch powerful programs that keep us all flying.

In this annual report, you'll see how our donors helped us bring flight within reach of more Americans. Our generous

donors helped reinvigorate the pilot community as we encouraged inactive pilots to take to the skies once again. They helped us as we worked diligently to build a national network of flying clubs. With donors' support of our youth program in 2013, they helped spark an interest in aviation in hundreds of young people through AOPA AV8RS.

In this report, you'll learn how donations help us build local support for community airports across the country. You'll see how your gifts have

brought safety education to thousands of pilots through the Air Safety Institute. And you'll see how we're strengthening the aviation community by providing modest, but much needed support for flight training scholarships and charitable flying groups.

Our deepest appreciation goes to all those AOPA members who understand that their dues alone cannot support the programs that ensure a robust future for general aviation. It's because of you that GA has a bright future.

Safe Skies,  
*Bruce Landsberg*  
President, AOPA Foundation

"Preserving our freedom to fly is the staunch conviction of every AOPA member."

– Bruce Landsberg  
President, AOPA Foundation

## ENCOURAGING MORE PEOPLE TO FLY

In 2013, donations to the AOPA Foundation helped support powerful programs designed to strengthen the pilot community.

### FLIGHT TRAINING EXCELLENCE POLL AND FLIGHT TRAINING EXCELLENCE AWARDS

AOPA invited pilots who have been in flight training within the last 24 months to complete the Flight Training Excellence Poll. The poll was based on AOPA's extensive research into the optimal flight training experience, and an impressive 3,375 individuals completed the poll, resulting in reviews of 508 different flight schools and 956 different flight instructors. The poll measured the overall performance of a flight school or flight instructor through the eyes of their customers. Results of the poll helped us identify factors, such as access to a simulator, perception of the value of flight training, and accessibility of flight instructors, that play a role in how students feel about their overall flight training experience. We can now offer qualified guidance to help programs offer more successful training.

### FLIGHT SCHOOL BUSINESS

The Flight School Business program offers support and resources for flight school owners and managers. With the support of donors to the AOPA Foundation, we were able to produce an e-newsletter that goes out twice a month, a Flight School Business Facebook group, and a webinar held every month to help flight schools succeed. The success of this effort is in the numbers: the Facebook group has attracted hundreds of members, more than 3,000 people subscribe to the e-newsletter and total webinar attendance in 2013 was nearly 2,000 people.

### FLIGHT TRAINING AND PILOT COMMUNITY SUMMIT

The former Center to Advance the Pilot Community hosted AOPA's fourth annual Flight Training and Pilot Community Summit with more than 120 attendees. The Summit focused on the AOPA flying clubs initiative, excellence in flight training, and research related to lapsed pilots. Discussion groups made up of flight training and flying club leaders resulted in a lively exchange of ideas. Aviation innovators, including OpenAirplane, Redbird Flight Simulations, and Aviation Access Project, also spoke to the group and shared some of the new and exciting things happening in aviation.

### FIELD GUIDE TO FLIGHT TRAINING FOR STUDENT PILOTS

During the summer of 2013, AOPA increased its marketing of the popular Field Guide to Flight Training for Student Pilots. This helped to significantly increase access to this useful information to help empower prospective flight students to take charge of their flight training experience.

### RUSTY PILOTS PROGRAM

In 2013, we worked with Aviation Adventures, an AOPA Excellence Award winning flight school with three locations in Virginia, to learn more about their innovative program called "Rusty Pilots." Our goal is to develop a national program using the concept from Aviation Adventures as the basis for expanding this workshop. In 2014, AOPA will create the necessary content for the program including a PowerPoint presentation, video, and instructor guide and provide it to qualified flight schools.

## AOPA AV8RS–YOUTH PROGRAM

The AOPA AV8RS program was developed to engage teens, ages 13–18, and raise awareness of aviation and aerospace through education, engagement, and support, and subsequently develop a new generation of pilots, industry leaders, and AOPA members.

While instilling the passion of flight in young people is one of our primary objectives, we also recognize that one may have a passion for aviation but may not be interested in becoming a pilot. By exposing teens

to aviation and aerospace through STEM–related activities and programs, we can inspire teens to take a greater interest in science, technology, engineering and math as they relate to their career goals.

Nearly 7,000 teen members had joined AV8RS by the end of 2013. We are exploring collaborative opportunities with EAA to continue to grow membership; preliminary discussions were held in December 2013.

By exposing teens to aviation and aerospace through STEM–related activities and programs, we can inspire teens to take a greater interest in science, technology, engineering and math as they relate to their career goals.

### TEEN ADVISORY COUNCIL

In 2013, we appointed seven AOPA AV8RS to the newly developed Teen Advisory Council, with a variety of interests in aviation, some currently pilots and others pursuing their primary certificate. Our first council meeting was held in November. The goal of the council is to give teen members an opportunity to be involved in shaping the future of AOPA AV8RS.

### EDUCATIONAL OUTREACH

In July, the Boy Scouts of America provided us with an exhibitor’s tent to promote aviation and AOPA AV8RS at the 2013 National Scout Jamboree in Mt. Hope, West Virginia. Over 30,000 Boy Scouts and 10,000 Scout leaders attended. The event was a great success as we had eight flight simulators on hand, serving over 4,000 Boy Scouts and we enrolled 1,645 new AOPA AV8RS, surpassing our goal of 1,000 enrollments. The Scouts who piloted the simulators received credit towards the BSA Aviation Merit Badge.

We presented a free youth aviation program to 100 Dallas/Fort Worth high school students in October at AOPA AirportFest at the Fort Worth Meacham International Airport. “Get Airborne: What You Need to Know” provided a hands-on discovery experience into the world of aviation through eight unique learning stations led by industry professionals, including: Aviation in the Know, Aviation Careers, Airport Operations, Aerodynamics, Powerplants, Instruments, Preflight, and Glider Building. Students were also given the opportunity to get up close and personal with general aviation aircraft. Participants gathered in a hangar at Meacham that housed a Piper Cherokee, an historic biplane and three flight-training stations. They met with Mark Baker, AOPA president and CEO, and other AOPA staff members and instructors. Luke Hickerson and John Ponts from the TV show *Flying Wild Alaska* were on hand to talk about their flying experiences. The program also satisfied the requirements for the Boy Scouts Aviation Merit Badge and we worked with several area BSA councils and troops to have Aviation Merit Badge counselors on hand to sign off on the merit badge forms. About a third of the attendees received their Aviation Merit Badge as a result of the event.

## AIR SAFETY INSTITUTE

2013 was another active and successful year as participation in the Air Safety Institute's online products, seminars, and flight instructor renewals exceeded 1,860,000—a new record! Contributing to our success was the development of 11 new safety quizzes, nine safety videos, seven publications, four webinars, three accident case studies, one mobile app, one iPad-compatible online course, and two nationwide seminars at nearly 200 locations.

The largest undertaking for ASI was development of the new online flight instructor refresher course (eFIRC) that allows CFIs to renew their certificates on PCs and mobile devices while earning credit for taking other ASI online courses. As an added benefit, CFIs can submit their renewal 'paperwork' entirely online.

A short synopsis of the educational programs developed in 2013 follows:

### ONLINE FLIGHT INSTRUCTOR RENEWAL – EFIRC

We launched our new online Flight Instructor Refresher Course, "eFIRC," a 16-hour renewal course that offers practical and engaging content that offers flight instructors a choice of elective modules.

### FLIGHT RISK EVALUATOR MOBILE APP

The app is designed to help pilots take a more systematic approach to those gray areas of go/no-go decisions.

### SAFETY TO GO

To help expand access to its free educational products beyond the reach of live safety seminars, ASI now provides a variety of its popular seminar presentations and video files to the GA community free of charge and available for download from the ASI website.

## SAFETY SEMINARS

Live seminars are held in various locations across the country. This year they included:

- **Chart Challenge: Live:** Offered at nearly 100 nationwide locations from January through May 2013, attendees learned to master chart fundamentals.
- **Weather Challenge:** This seminar was aimed at bolstering pilots' real-world weather wisdom—and having a little fun, too.
- **Safe Skies, Good Neighbors—New Haven, CT:** AOPA Foundation President Bruce Landsberg led a discussion that covered known details of a spotlighted accident, best flight practices in urban and congested areas, noise abatement, fuel management, instrument approaches and emergency preparedness.
- **Safe Skies, Good Neighbors—Santa Monica, CA:** In response to a fatal accident, AOPA Foundation President, Bruce Landsberg, and AOPA's Vice President of Airport Advocacy, Bill Dunn, gave a presentation about safe and courteous flying in urban areas to an audience of 125 in Santa Monica, CA, where the airport has been under escalating threat by airport opposition groups.

## WEBINARS

Since 2009, the Air Safety Institute has succeeded in offering engaging webinars that provide attendees the convenience of participating from wherever they are—home, office, or airport. What's more, in 2013 ASI's *Airframe Ice* and *Datalink* webinars set new attendance records. Some of the other topics included *Nontowered Airport Operations Refresher*; *Thunderstorm Avoidance: ATC, Datalink, and You*; *Datalink: Cockpit Weather Do's and Don'ts*; and *Airframe Ice: Avoidance and Escape*.

## ACCIDENT CASE STUDIES

The Air Safety Institute's Accident Case Studies examine the issues and problems surrounding aviation accidents to help pilots learn from other pilots' errors.

## SAFETY VIDEOS

In 2013, the Air Safety Institute produced a number of popular safety videos, including *How to Stop the Spread of Invasive Species*; *Ask ATC: Flight Following and Airspace*; *Takeoffs and Landings*; *Determining an Abort Point*; *Short-Field Landings: Normal Takeoffs*; *Flying the Weather*; and *Airframe Icing*.

## SAFETY QUIZZES

With over 20,000 monthly completions, ASI's popular safety quizzes offer a quick and effective way of challenging pilots' knowledge to help them fly safer. ASI continued its series of IFR chart quizzes with engaging narratives and scenarios to help IFR pilots and enthusiasts improve their understanding and safe application of IFR procedures. Four other quizzes were developed on a variety of safety topics.

A more detailed report of Air Safety Institute activities can be found online at [www.AOPAFoundation.org](http://www.AOPAFoundation.org).

## PUBLICATIONS

The Air Safety Institute published several recurring and new publications in 2013.

- **CFI to CFI newsletter:** This digital newsletter was distributed four times in 2013 to over 50,000 certificated flight instructors (CFIs) in the U.S. and over 1,000 non-CFIs who signed up for the newsletter.
- **Aging and the General Aviation Pilot: Research and Recommendations.** In this report, we looked at 20 years' worth of scientific research on older pilots about the impact of age, and ways pilots can best minimize or delay any negative effects.
- **VFR into IMC syllabus:** This downloadable syllabus is designed to help protect pilots against GA's most fatal type of weather-related accident—VFR into IMC.
- **Digital Airspace Flash Cards:** ASI's new digital, tablet-ready airspace flash cards offer a convenient learning tool for students, pilots, and instructors.
- **Aircraft Flash Cards:** ASI's updated Aircraft Flash Cards are designed to help new, seasoned, and transitioning pilots gain knowledge of aircraft speeds, profiles, systems, and emergency procedures.
- **Public Benefit Flying Safety Advisor:** As a complementary piece to ASI's award-winning *Public Benefit Flying* online course, pilots and volunteer pilot organizations can use this publication to learn how to mitigate pressures and recognize treacherous mindsets that could cause harm.
- **GA Accident Scorecard:** The Air Safety Institute's 2011-2012 GA Accident Scorecard summarizes general aviation accidents in those two years. A detailed analysis of 2011's accidents will be provided in the ASI's 23rd *Joseph T. Nall Report*, with publication anticipated in the second quarter of 2014.

With over 20,000 monthly completions, ASI's popular safety quizzes offer a quick and effective way of challenging pilots' knowledge to help them fly safer.

## GIVING BACK

The AOPA Foundation's Giving Back program was established in 2013 to shine a light on all the good work being done through General Aviation and to provide support to those interested in aviation. Funds are awarded in two ways:

1. Modest grants are awarded to nonprofit organizations performing public benefit flying, and humanitarian and charitable work through general aviation.
2. Scholarships are awarded to students wishing to learn to fly or pursue careers in aviation.

In 2013 the following nonprofit organizations were awarded grants through the Giving Back Program:

**Air Care Alliance**

*Lindrieth, NM*

**Challenge Air for Kids & Friends, Inc.**

*Dallas, TX*

**Duluth Aviation Institute**

*Duluth, MN*

**Girls Incorporated of Oak Ridge**

*Oak Ridge, TN*

**Kentucky Institute for Aerospace Education**

*Frankfort, KY*

**LightHawk**

*Lander, WY*

**Pilots N Paws**

*Landrum, SC*

**Recreational Aviation Foundation**

*Bozeman, MT*

**Veterans Airlift Command**

*Minneapolis, MN*

**Young Aviators**

*Racine, WI*

The AOPA Foundation's support of the grantees and scholarship recipients resulted in positive publicity and inspiring stories that pilots everywhere can be proud of.

“Everything in aviation begins at an airport.”

– Mark R. Baker  
AOPA President & CEO

## PRESERVING AMERICA'S COMMUNITY AIRPORTS

“Everything in aviation begins at an airport.”

So says AOPA's new President and CEO Mark Baker, who came on board in September 2013. AOPA's Airports team understands that, and our donors helped us with this high priority as we work to promote, protect, and defend these essential transportation facilities.

In 2013, donors to the AOPA Foundation helped support our national efforts to update airport markings and TRB-ACRP study projects on *Backcountry Airstrip Operations*, *Managing Through-the-Fence Operations*, *Airport Response to Regional Special Events*, and *Reducing Lead Emissions at Airports*. AOPA also weighed in with the U.S. Forest Service

to ensure they include recreational use of backcountry airstrips in their planning. We have also assisted several states with their statewide airport system plan updates.

In 2013, the entire Airports team at AOPA HQ and in the field continued to work on closure, encroachment, access and other issues at airports and other landing places, including airports in Paris IL, Morris IL, Livermore CA, Ely NV, Millard NE, Kennewick WA, Tehachapi CA, Midlothian TX, Waynesboro VA, Stockton CA, Enterprise AL, Grosse Ile MI, Bainbridge GA, Albany NY, Ohio State University OH, Taft CA, Munson FL, Princeton MN, Burlington WA, California City CA, Readington NJ, McAllen TX,

Colorado Springs CO, Falcon Field AZ, Ogallala NE, San Luis Obispo CA, Accident MD, Milton FL, Dallas TX; Destin FL, Joplin MO, Kalamazoo MI, Stewart NY, Chatham MA, and of course, Santa Monica, CA.

The Airport Support Network program continues to be at the heart of AOPA's efforts to engage with airport communities. This year, the program passed a major milestone, expanding to more than 2,500 airports with ASN volunteers. Virginia became the first state in the nation to have an ASN volunteer at every one of its public use airports.

In 2013, as a result of our efforts, **there were no new state tax increases anywhere on aviation.** AOPA's state affairs team devotes much of its work to ensuring constant communication with state and local leaders who make decisions that affect airports or other

aviation policies. This allows us to become a trusted “go-to” resource on GA issues.

In addition to our educational efforts, AOPA supports our members' interests in all 50 states. Our goal is to keep flying as affordable and accessible as possible. This means protecting aviators from unnecessary state and local taxes and fees, blocking unnecessary security or environmental restrictions, promoting airport friendly land-use policies and regulations, and fostering a climate in which aviation businesses and activities can thrive.

Perhaps 2013's biggest win came in Indiana, where AOPA led the charge to repeal two significant taxes—one on fuel and one on aircraft parts and labor. The elimination of the fuel tax saves aircraft owners as much as 40 cents per gallon, while the end to the 7 percent tax on parts and labor can save pilots hundreds

or thousands of dollars on typical maintenance, upgrades, and repairs. The tax cuts had an almost immediate effect, spurring GA activity in the state and leading aviation businesses to hire more people. The swift and dramatic impact is prompting other states to consider similar measures in the hope of boosting economic activity. Neighboring Michigan and Wisconsin have aviation tax reforms moving through their two-year legislative cycles with strong bipartisan support and expectations of passage in 2014.

In Pennsylvania, a new law was signed exempting aircraft parts and components, as well as services to aircraft, from a 6-percent sales tax. In Maine, a two-year-old exemption from sales and use taxes for aircraft and parts due to sunset was extended until 2033.

## REVIEW OF FINANCIALS

Thanks to generous donors like you the AOPA Foundation raised more than \$5,000,000 in 2013! The figures below represent the financial activities of the AOPA Foundation for the calendar year ended December 31, 2013.

REVENUE, GAINS, AND OTHER SUPPORT	2013
Contributions	5,829,000
Endowments	450,000
Course Income	1,207,000
Return on Investments & Other Income	2,391,000
<b>Total Revenue</b>	<b>9,877,000</b>
EXPENSES	2013
Education & Safety Programs	6,574,000
Fundraising	471,000
Management & General	470,000
<b>Total Expenses</b>	<b>7,515,000</b>
<b>Change in Net Assets</b>	<b>2,362,000</b>

ASSETS	2013
Cash & Investments	28,997,000
General Accounts Receivable	181,000
Contributions Receivable, Net	4,953,000
Other Assets	169,000
Property & Equipment, Net	173,000
<b>Total Assets</b>	<b>34,473,000</b>

LIABILITIES & NET ASSETS	2013
Accounts Payable & Accrued Liabilities	522,000
Deferred Revenue	127,000
Long-Term Obligations	307,000
<b>Total Liabilities</b>	<b>956,000</b>

NET ASSETS	2013
Unrestricted	15,426,000
Temporarily Restricted	7,652,000
Permanently Restricted	10,439,000
<b>Total Net Assets</b>	<b>33,517,000</b>
<b>Total Liabilities &amp; Net Assets</b>	<b>34,473,000</b>

## THE HAT IN THE RING SOCIETY

The Hat in the Ring Society was turbo-charged in 2013 with a generous challenge grant from AOPA Foundation Board of Visitors and President's Council member **Scott Schneider**. His challenge to us: grow the Hat in the Ring Society by adding 50 new members by the end of the year and he would donate \$50,000 to the AOPA Foundation. That was all we needed to kick into high gear. When new AOPA president and CEO Mark Baker and AOPA Foundation President Bruce Landsberg launched their friendly "Battle of the Presidents," we knew we were on our way. Mark and Bruce hammered away on each other with lots of friendly, competitive trash-talking to see who could recruit the most Hat in the Ring Society members, and our generous AOPA members responded overwhelmingly. Bruce topped Mark by only two, but the bottom line results were amazing, with 108 pilots stepping up to join the Society for the first time and 27 first-year members renewing their support. **Scott Schneider's** generous gift helped the AOPA Foundation grow the Hat in the Ring Society by nearly 40% in 2013. His challenge inspired others to get involved in supporting general aviation's future. Like Scott, Hat in the Ring Society members play a leadership role at AOPA by taking action to solve general aviation's toughest issues. Thank you to the following Hat in the Ring Society members for stepping up in 2013:

## GOLD HAT IN THE RING SOCIETY

James J. Mulva  
Welles Murphey Jr.

## SILVER HAT IN THE RING SOCIETY

### "GIVE WINGS" AIRCRAFT DONATIONS

James B. Miles  
Jack K. Williams

## OTHER GENEROUS SUPPORTERS

In 2013, AOPA Foundation President's Council member **Bennett Dorrance** boosted our Annual Giving campaign with a generous matching gift of \$50,000. Our donors "doubled down" as Bennett matched every dollar donated to the Foundation with a dollar of his own. This generous gift allowed AOPA Foundation donors to have a bigger impact on the future of general aviation as they responded by turning \$50,000 into a total gift of \$300,000 in just a matter of weeks. We extend our heartfelt thanks to the hundreds of donors who continue to give to the AOPA Foundation year after year. We're so proud to be your charity of choice!

## ABOUT THE AOPA FOUNDATION

As the charitable arm of AOPA, the AOPA Foundation helps to provide funding for important work that membership dues alone cannot support. To amplify the work of the membership association, the AOPA Foundation provides funding for challenging projects that will keep general aviation strong and preserve Americans' freedom to fly.

The AOPA Foundation Inc., a 501(c)(3) tax-exempt charitable, educational, and scientific organization, educates the public on the value of general aviation. The AOPA Foundation works to improve aviation safety through the Air Safety Institute, preserve community airports, and encourage learning to fly for career and personal benefit—all in the interest of ensuring the future of general aviation in America.

421 Aviation Way, Frederick, MD 21701 | 800-955-9115 | [www.AOPAFoundation.org](http://www.AOPAFoundation.org)
