

AOPA FOUNDATION

**2015 AOPA FOUNDATION
ANNUAL REPORT**

It should come as no surprise that AOPA membership dues alone cannot support all the programs that help tackle the issues facing GA today. We depend on the AOPA Foundation, and the Foundation depends on you.

MARK BAKER
AOPA PRESIDENT & CEO

We simply couldn't tackle the difficult issues that GA continues to face without friends like you—who recognize the value and challenges of general aviation...

A MESSAGE FROM MARK BAKER

When I was a boy, pilots were my heroes. And they still are. But today, my heroes aren't so much the daredevils and adventurers who broke new ground and set aviation records, but those who are quietly building a better, stronger future for the pilots of tomorrow. Our AOPA Foundation President's Council, Hat in the Ring Society, and Legacy Society members are among those who are doing exactly that.

To have an opportunity to work with these leaders is, for me, a dream come true. Together, we are making our own mark on general aviation just as surely as the great heroes of aviation's past.

This AOPA Foundation 2015 Annual Report will provide you with a snapshot of what we achieved last year with your help.

Last year, we were able to provide \$2.8 million to programs that kept pilots safe, encouraged more people to fly, and strengthened our national GA community.

Thanks to friends like you who help cover the cost of the Air Safety Institute's educational offerings, the AOPA Foundation was able to fund a vast array of programs in

2015, including online and in-person Flight Instructor Refresher Courses (FIRC)s, live seminars, online courses, publications, videos, accident analysis, and quizzes. With the exception of the FIRC)s, these offerings are free to anyone, whether or not they are members of AOPA.

Our major donors supported our more than 2,500 Airport Support Network volunteers who work tirelessly to protect our airports and make sure that GA's enormous contributions are recognized in our communities.

With your help, we provided 24 flight training scholarships to deserving student pilots. Your contributions helped us continue our popular Rusty Pilots program that has encouraged hundreds of inactive pilots to get back in the left seat.

We provided support for five AOPA regional fly-ins—enormously successful events built around safety training, education and camaraderie.

The AOPA Foundation also supported the popular AOPA AV8RS program for teens ages 13-18, and we took initial steps toward developing new high school curricula designed to give aviation-related topics a greater prominence in Science, Technology, Engineering, and Math (STEM) education nationwide.

And to combat the high cost of flying, the AOPA Foundation has provided critical logistics support to new and existing flying clubs nationwide—to bring aviation within financial reach of more Americans as well as build stronger pilot communities at GA airports in all 50 states.

Membership dues alone can't provide the support necessary to carry out these programs that tackle the difficult issues that GA continues to face. We simply couldn't do it without friends like you—who recognize the value and challenges of general aviation, and who have made the AOPA Foundation their charity of choice.

It is a great honor to stand with you in support of this wonderful and worthy cause. This Annual Report is dedicated to you and others like you who make all of our work possible, and I look forward to our continued success this year, and in the years to come, with your steadfast help.

Mark R. Baker
President and CEO, AOPA

A MESSAGE FROM BILL AYER, CHAIRMAN OF THE AOPA FOUNDATION BOARD OF VISITORS

I am proud to support AOPA by contributing my time to the AOPA Foundation Board of Visitors and by contributing financially to the AOPA Foundation. The money raised by the AOPA Foundation is used to pay for AOPA projects critical to general aviation, and together we are making a positive impact to improve aviation safety and to enhance the pilot community. While a lot has been accomplished, much more remains to be done.

Support from donors like us fund the educational efforts of the AOPA Air Safety Institute. ASI is one of the flagship programs for the association, setting the industry standard for aviation safety education and research. In 2015, pilots around the world accessed nearly two million safety products online, and the twenty-fourth edition of the annual Joseph T. Nall accident analysis report was published. In 2015, ASI also brought to pilots:

- three new online courses
- two accident case studies
- 10 safety videos
- 200 in-person safety seminars
- 11,000 CFI renewals

All of this work in outreach, safety, the You Can Fly program, and community-building is aimed at securing the future for general aviation.

Our support also funds the You Can Fly program and its goal to get more people flying, and to keep them flying with access to affordable aircraft and shared cost arrangements. Here are some highlights from 2015:

- Conducted 103 free Rusty Pilot seminars, with 3,500 attendees. Since program inception, more than 1,200 lapsed pilots are now back in the left seat
- Helped start 10 new flying clubs in 2015 (with 20 more on track in 2016)
- Three full-time AOPA Ambassadors across the country promoting safety education, encouraging the formation of flying clubs, and bringing AOPA's resources to the pilot community
- 24 flight training scholarships for aspiring pilots of all ages

We also are making great strides in promoting aviation and related careers to young men and women of high school age. Of particular note, AOPA launched the first High School Aviation Symposium in November 2015. More than 150 educators, pilots, and aviation industry leaders came together to learn how to incorporate aviation components into STEM (Science, Technology, Engineering, and Math) curricula in high schools nationwide. The AOPA High School Initiative will grow the number of future pilots, aerospace technicians, and engineers—and it's funded solely by charitable contributions to the AOPA Foundation.

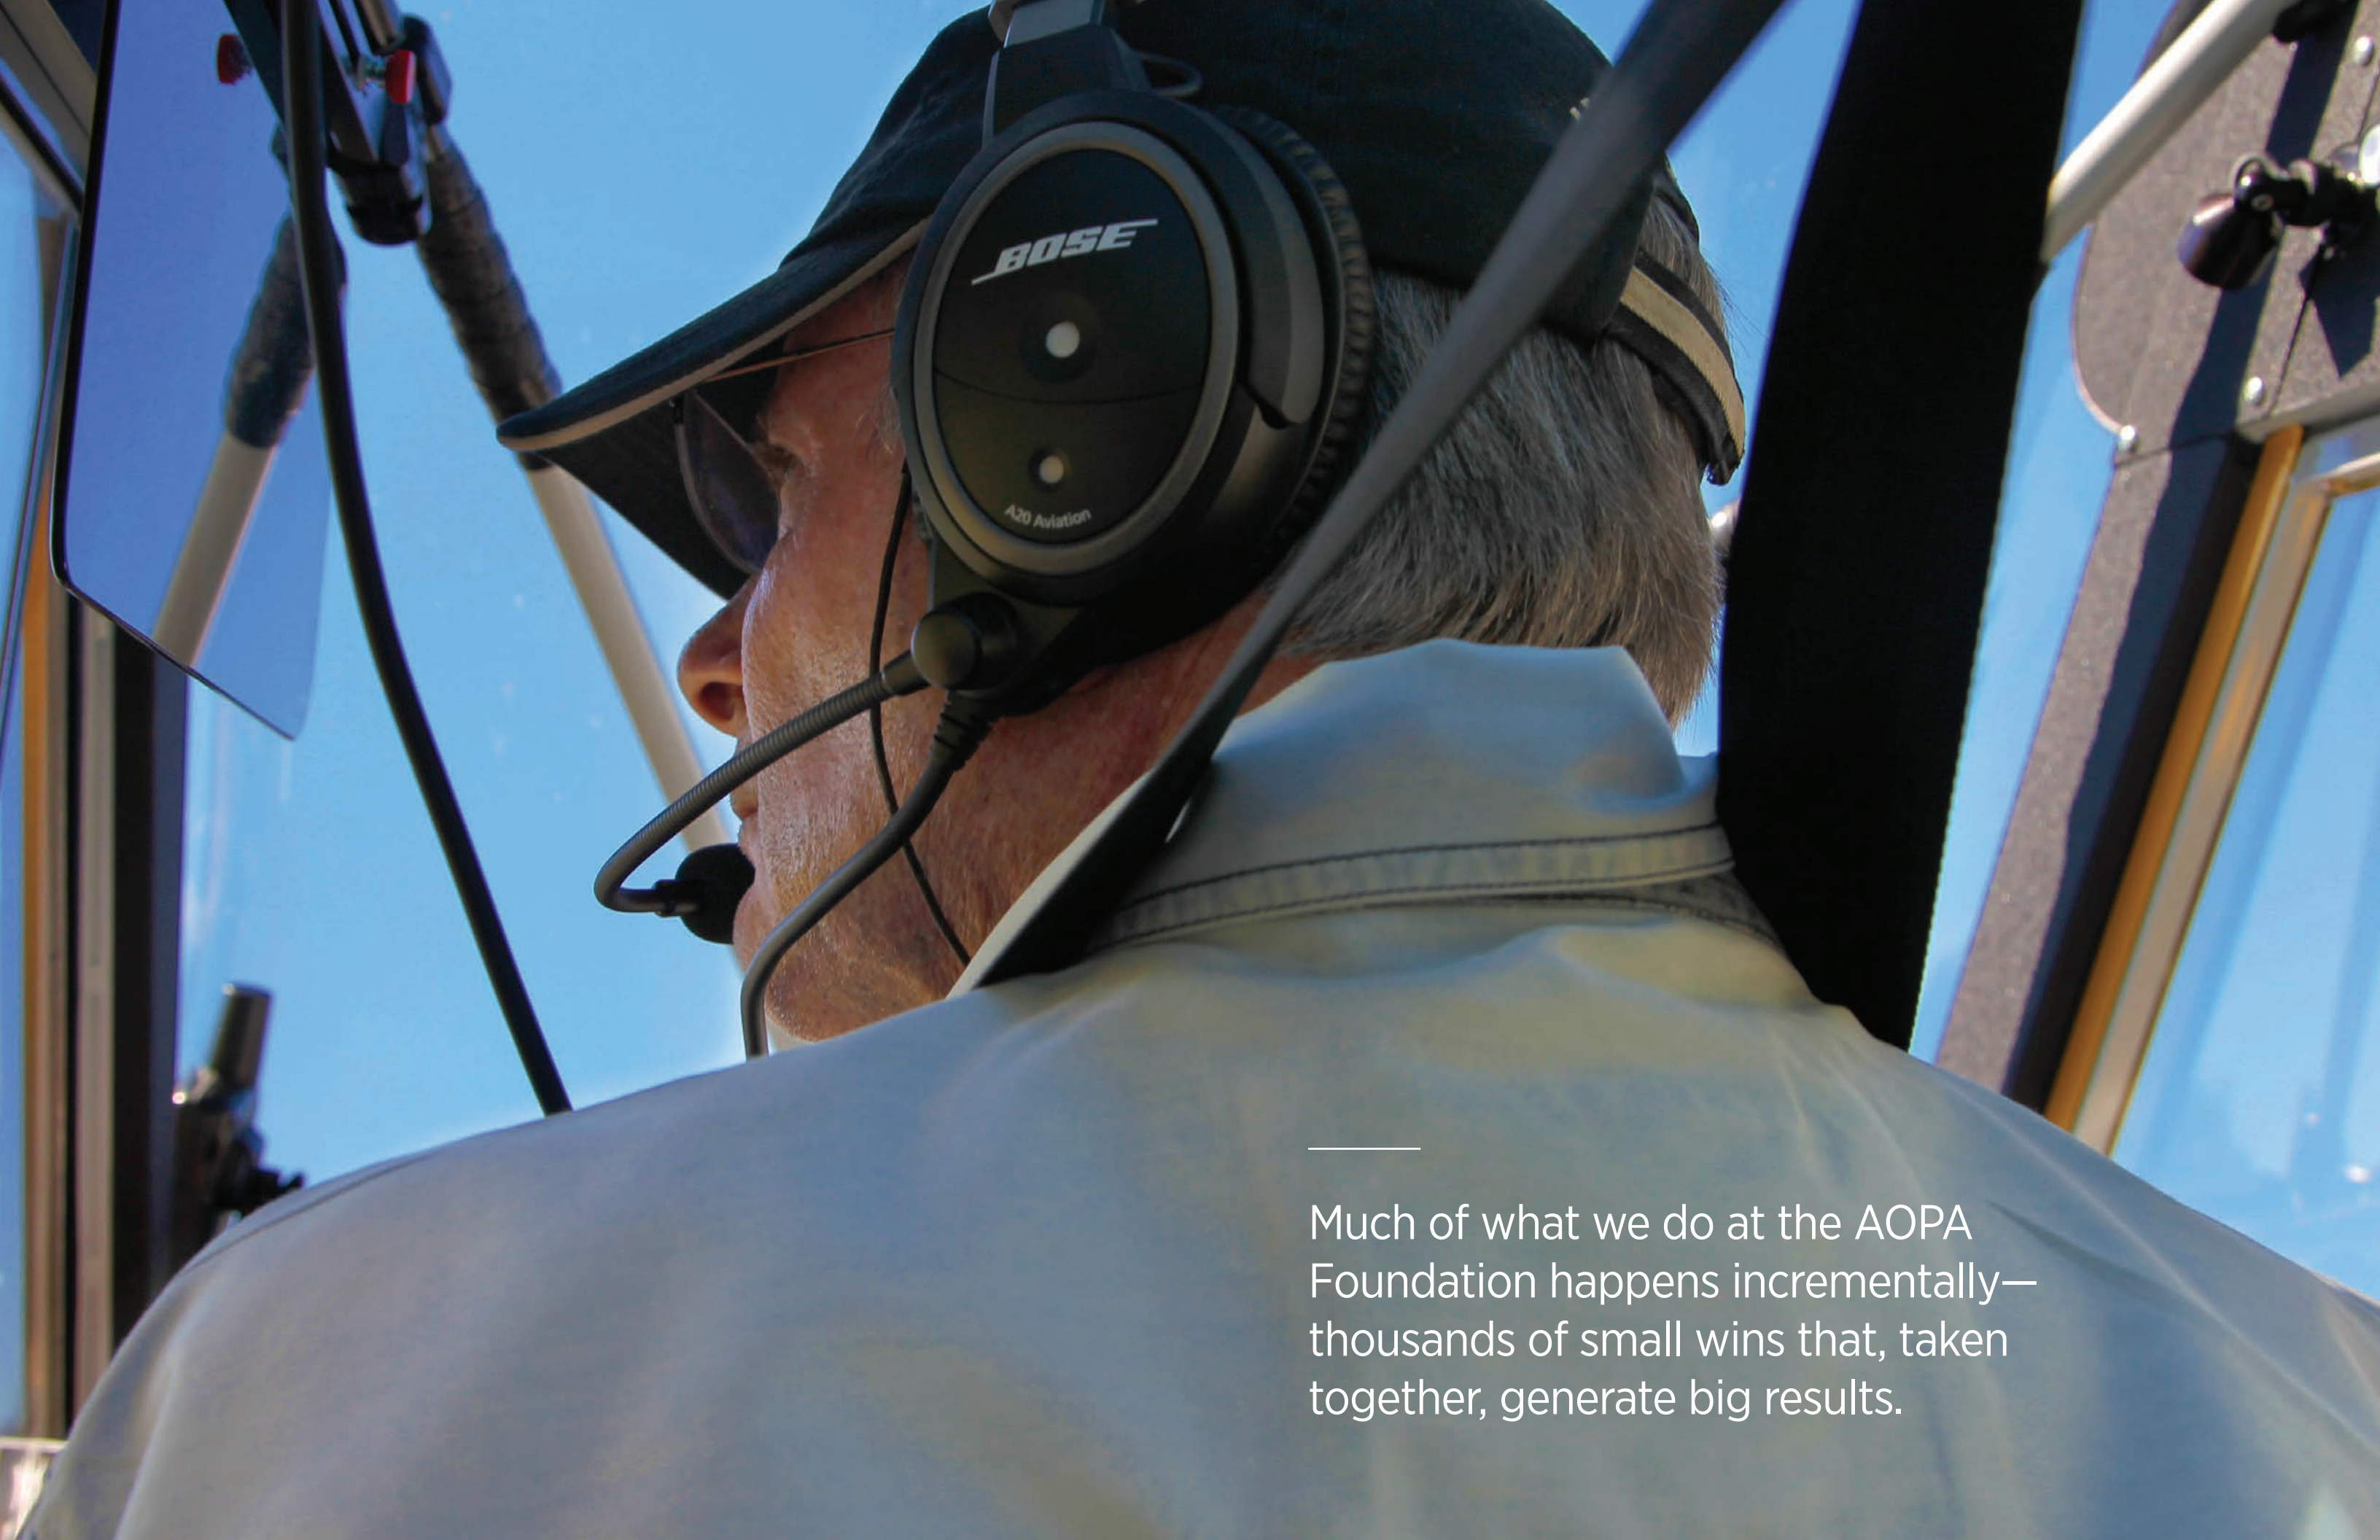

Also, the five regional fly-ins in 2015 were funded by gifts to the Foundation. More than 13,000 members and guests attended seminars and enjoyed the warm camaraderie surrounding these events.

All of this work in outreach, safety, the You Can Fly program, and community-building is aimed at securing the future for general aviation. AOPA is ideally positioned to lead the effort. I have spent a lot of time with the AOPA team over the past year and you can have confidence in their work to expand these successful programs and to explore new areas for improvement.

Thank you. With our continued support AOPA can move forward with confidence.

Fly Safely,

Bill Ayer
Chairman, AOPA Board of Visitors
Former Chairman and CEO of Alaska Air Group
ATP, CFII and Malibu owner since 1984

Much of what we do at the AOPA Foundation happens incrementally—thousands of small wins that, taken together, generate big results.

We're passionate about our work and feel privileged that so many pilots and aviation enthusiasts make our safety education part of their lives.

AOPA AIR SAFETY INSTITUTE 2015 MILESTONES & ACHIEVEMENTS

Since AOPA's earliest beginnings more than 75 years ago, safety has been among our primary missions. Today, our Air Safety Institute is the world's undisputed leader in providing safety and proficiency training and resources to pilots—absolutely free of charge. Each year, ASI's products and programs have been expanded, updated and improved, thanks to generous gifts from AOPA Foundation donors like you. And 2015 was another banner year—both in terms of expanding our offerings to pilots, and reaching a larger audience of pilots.

EXTRAORDINARY PARTICIPATION IN ASI PROGRAMS

2015 was another active and successful year as users of the AOPA Air Safety Institute's online products, seminars, and flight instructor renewals exceeded 2,000,000. Contributing to our success was the development of fifteen new safety videos, two safety quizzes, nine new publications *24th Joseph T Nall Report*, two live seminars conducted at 200 locations nationwide, and much more.

AN EXPANDING PRESENCE ON SOCIAL MEDIA

ASI's Facebook presence increased seven-fold in 2015, to more than 170,000 "Likes"—making our Facebook page one of the most popular GA sites on social media. In addition, more than 12,000 individuals have subscribed to our YouTube channels, and our videos were viewed 1,000,000 times in 2015. That's more than 2,700 individuals per day viewing our ASI safety information through this one outreach program alone!

LEARN & EARN SAFETY CHALLENGE

Learn & Earn provides an innovative, fun, and engaging way to participate in ASI's online programs. This interactive challenge matches students and pilots with a safety program matched to their experience and

flying style, and automatically enters participants into a quarterly prize drawing upon completion of any eligible safety program.

SAFETY SEMINARS

ASI hosted 200 live safety seminars in 42 states in 2015, attended by 25,000 pilots and aviation enthusiasts.

These seminars included:

- **After the Crash: Surviving an Aircraft Accident**

Of the millions of GA flights every year, only a few end with unplanned off-airport landings. But even though the odds of a crash are slim, the potential consequences are harsh — which is why smart pilots prepare and take basic precautions. Thanks to this seminar, thousands of pilots are better equipped to maximize the likelihood of survival and rescue after a crash.

- **Cross Country Challenge**

Aviation safety discussions normally tackle one issue at a time. This unique seminar offered participants the opportunity to follow along as we "flew" two fictional trips, exploring interconnected safety issues from pre-flight planning to final tie-down.

ONLINE COURSES

The Air Safety Institute added three new full-length courses in 2015. With more than three dozen courses now online—many providing AOPA Accident Forgiveness and FAA Wings credit—these courses represent an extraordinary resource for continuing online pilot education, always offered free-of-charge thanks to our generous AOPA Foundation donors.

- **Runway Safety**

Offering an in-depth look at safe airport operations, with special emphasis on tricky situations from the real world of cockpit distractions, confusing taxiways, and miscommunication.

- **Transitioning to Other Airplanes**

Helping pilots to manage and reduce risks when transitioning to unfamiliar aircraft.

- **IFR Insights: A Practical Approach**

Going beyond the textbook to reduce pilot workload and fly more safely in the IFR system—with techniques and procedures used by seasoned pilots, instructors, and air traffic controllers in the real world.

NEW SAFETY VIDEOS

ASI expanded our online library of safety videos in 2015 with 15 new titles, including:

- Margins of Safety: Angle of Attack Indicators
- Margins of Safety: Avoiding Power-on Stalls
- Collision Avoidance: See, Sense, Separate
- Weather Wise Video Series
- Fly-In Videos
- Two Accident Case Studies
- One Real Pilot Story

SAFETY QUIZZES

With over 20,000 monthly completions, ASI's popular safety quizzes offer a quick and effective way of challenging pilots' knowledge to help them fly safer. In 2015, ASI continued our IFR quiz series with new titles that included:

- The Almost ILS
- Into the Black Hole

PUBLICATIONS

The Air Safety Institute published several recurring and new publications in 2015 including:

- *24th Joseph T. Nall Report*
- *2013–2014 General Aviation Accident Scorecard*
- *CFItoCFI* newsletter
- *USAIG Premium On Safety* newsletter

Under the You Can Fly banner, we provide critical support to flying clubs, encourage best practices in flight training, help lapsed pilots get back in the air, help high school students learn more about aviation opportunities, and make flying more accessible and affordable.

YOU CAN FLY PROGRAM

The goal of AOPA's new You Can Fly program can be summed up in a few words: To get more people flying, and keep them flying.

But there's no one-size-fits-all solution when it comes to building our community. That's the reason for AOPA's You Can Fly program—an umbrella program that would allow us to simultaneously pursue many different approaches.

Under the You Can Fly banner, we provide critical organizational support to new and existing flying clubs and encouraging best practices in flight training so that more pilots can complete their training. We're helping get lapsed pilots back in the air, helping high school students learn more about aviation opportunities, and making flying more accessible and affordable to more and more Americans.

FLYING CLUBS

Through our Flying Clubs Initiative, we helped start 10 new flying clubs in 2015 and worked with dozens of other groups to help them grow, improve operations, or begin the formation process. We've also launched free scheduling software that allows clubs in AOPA's Flying Club Network to schedule aircraft and instructors, create invoices, and accept credit card payments. And we've improved the Flying Club Finder, making it easier than ever to find the perfect club based not only on location but also on the types of aircraft, services, and amenities offered.

FLIGHT TRAINING EXCELLENCE POLL AND FLIGHT TRAINING EXCELLENCE AWARDS

Each year, AOPA invites student pilots to complete our Flight Training Excellence Poll. The poll was based on AOPA's extensive research into the optimal flight training experience and, in 2015 an impressive 7,133 individuals completed the poll, reviewing 788 flight schools and 1,533 flight instructors. Results of the poll helped us identify the factors—such as access to a simulator, perception of the value of flight training, and accessibility of flight instructors—that play a role in how students feel about their overall flight training experience. Based on this poll, we've not only been able to publicly recognize outstanding flight schools and instructors for their performance, but can offer a higher level of guidance to help flight training programs to offer successful training experiences nationwide.

RUSTY PILOTS

In 2014, we worked with Aviation Adventures, an AOPA Excellence Award-winning flight school with four locations in Virginia, to learn more about their innovative program called "Rusty Pilots." Using this concept, we developed a nationwide program—offered free of charge to qualified flight schools—to help get "rusty," lapsed pilots back in the air. This pre-packaged workshop makes it easy for local flight schools to create an event for rusty pilots in their geographic area and encourage these pilots to become current and start flying again. Last year, more than 100 "Rusty Pilots" workshops were held across the country, with more than 3,500 attendees—approximately 25% of whom subsequently completed a biennial flight review in order to return to active status. Even more events will

be held in 2016. Through this program, thousands of pilots are returning to the skies—thanks to your generous support of the AOPA Foundation!

AOPA HIGH SCHOOL INITIATIVE

The most recent addition to the You Can Fly program is the AOPA High School Initiative, designed to bring aviation education into high schools nationwide.

We held our first High School Aviation Symposium in November 2015, and more than 150 educators, administrators, pilots, and aviation industry leaders took part. It was a chance to share ideas, learn about the value of adding aviation education to STEM (Science, Technology, Engineering, and Math) programs, and discuss opportunities to start or grow aviation education programs.

We're excited about this opportunity to work with educators across the nation to advance our general aviation cause, and we look forward to expanding this effort in 2016 and beyond.

Today's pilots benefit immeasurably from the vision of those who came before us and led the way. Now, it's our turn to leave our own legacy for the pilots of tomorrow.

BUILDING & STRENGTHENING A NATIONAL GA COMMUNITY

FLIGHT TRAINING SCHOLARSHIPS

In an effort to support outstanding student pilots, the AOPA Foundation awarded 24 flight training scholarships in 2015. Recipients were chosen on merit, merit, including previous accomplishments, ability to set goals, and demonstrated commitment to flight training and general aviation. These scholarships were awarded at the AOPA Homecoming Fly-In last October.

By making these scholarships possible, our AOPA Foundation donors have given a priceless and lifetime gift to passionate aviators who might otherwise never had the opportunity to live the dream that we have been privileged to share.

AOPA AV8RS YOUTH PROGRAM

The AOPA AV8RS program was developed to engage teens, ages 13–18, and raise awareness of aviation and aerospace through education, engagement, and support, and subsequently develop a new generation of pilots, industry leaders, and AOPA members. AV8RS includes special benefits and programs aimed, all offered free of charge to our young members.

While instilling the passion of flight in young people is one of our primary objectives, we also recognize that youngsters may have a passion for aviation but may not be interested in becoming a pilot. By exposing teens to aviation and aerospace through science, technology, engineering and math (STEM) activities and programs, we can inspire teens to take a greater interest in aviation when considering their career goals. More

than 8,000 teenagers had joined AV8RS through the end of 2015, thanks to the generosity of our AOPA Foundation contributors who have made this program possible since 2012.

AOPA FLY-INS

In 2014, we launched a regional fly-in program to give more pilots and GA enthusiasts the opportunity to engage directly with AOPA nationwide. Thanks to the generous support of our donors, the AOPA Foundation was able to play a key sponsorship role in the extraordinary success of this new program.

Our 2015 events were held at KSNS (Salinas, CA), KANE (Minneapolis, MN), KCOS (Colorado Springs, CO), MA), and KTHA (Tulahoma, TN). In addition, we continued a great AOPA tradition with a “Homecoming” event here at KFDK, AOPA’s home airport in Frederick, MD.

Each of these events drew hundreds of aircraft, and the total number of attendees far surpassed our expectations, with over 29,000 total attendees. In the years ahead, with your help, we look forward to continued success with this program at GA airports across the nation.

AIRPORT SUPPORT NETWORK

The Airport Support Network program continues to be at the heart of AOPA’s efforts to engage with pilots, local citizens, and decision-makers to protect America’s unique network of local general aviation airports. With more than 2,500 volunteers nationwide, our volunteers cover nearly 50% of the public use airports in America. From organizing airport events to attending city, county, and airport board meetings, our volunteers are helping

to ensure that our airports are a source of pride to our communities, and are recognized for their enormous value in jobs creation, medical evacuation, and disaster relief. With your help, the AOPA Foundation will continue to provide the financial backing necessary to maintain and support the priceless contribution that these volunteers make to the future of general aviation.

PHILANTHROPIC OPPORTUNITIES

NEW HORIZONS SOCIETY

Donors at this level have made the profoundly generous commitment to give \$1 million or more as a one-time gift to the Foundation or as a lifetime cumulative gift. In addition to all of the benefits accorded to members of the Leadership Society, members of the New Horizon Society receive recognition as part of the New Horizon Society Gallery at AOPA Headquarters.

LEADERSHIP SOCIETY

Leadership Society donors selflessly support the AOPA Foundation through a commitment to give \$500,000 to \$999,999 as one gift or over five years. Members of the Leadership Society receive all of the benefits accorded to members of the Founder's Society plus invitations to meetings of the International Council of Aircraft Owner and Pilot Associations.

PRESIDENT'S AMBASSORS

President's Ambassadors are an exceptionally committed group of pilots, aircraft owners, and aviation enthusiasts whose impact is felt through their pledge to donate \$100,000 over 5 years. In addition to the

benefits of President's Council membership, they receive exclusive access to inside information concerning hot issues concerning general aviation.

PRESIDENT'S COUNCIL

The AOPA President's Council members exemplify an outstanding level of dedication to aviation philanthropy. Chaired by John N. Nordstrom, our President's Council members provide not only their exceptional financial support to the Foundation, but serve as trusted advisors to our AOPA leadership staff. By committing to contribute \$50,000 or more to the Foundation over a five-year period, those who serve on our President's Council play an incomparable role in shaping the future of our general aviation community.

LEGACY SOCIETY

Members of the Legacy Society protect general aviation for future generations by including the AOPA Foundation in their estate planning. Whether by naming the AOPA Foundation in a will, making the AOPA Foundation a beneficiary of a charitable trust or by designating retirement assets or life insurance proceeds to the AOPA Foundation, these acts demonstrate a forward-thinking commitment to the future of general aviation.

ENDOWMENTS

Creating an endowment to provide an ongoing source of funding for the AOPA Foundation's work is an exceptional way to honor a loved one, demonstrate your passion for aviation, and ensure that efforts to improve air safety, protect community airports, and grow the pilot population continue long into the future.

HAT IN THE RING SOCIETY

Named after Eddie Rickenbacker's 94th Aero Squadron, our Hat in the Ring Society members are key Foundation leaders in shaping and building a stronger future for general aviation. Chaired by Harrison Ford and other distinguished pilots, our Hat in the Ring Society members receive special benefits and event invitations to honor their generosity, leadership and service. Membership begins at \$1,000 per year, or \$1,900 for a family membership. Bronze Level members support the AOPA Foundation at \$2,500 per year, Silver Level members contribute \$5,000 per year.

...the AOPA Foundation puts your contributions to their best use in the interests of general aviation, all of us who value it, and future aviators.

ABOUT THE AOPA FOUNDATION

As the charitable arm of AOPA, the AOPA Foundation helps to provide funding for important work that membership dues alone cannot support. To amplify the work of the membership association, the AOPA Foundation provides funding for challenging projects that will keep general aviation strong and preserve Americans' freedom to fly.

AOPA FOUNDATION MISSION

The AOPA Foundation, a 501(c) (3) tax-exempt charitable, educational and scientific organization, educates the public on the value of general aviation. The AOPA Foundation works to improve aviation safety through the Air Safety Institute, preserve community airports, and encourage learning to fly for career and personal benefit—all in the interest of ensuring the future of general aviation in America.
